

Blade Fabric

The Blade Fabric is a modern and ergonomically designed reclining chair that combines style and functionality to enhance any workspace. Featuring a black fabric-upholstered backrest and seat, it provides a soft yet durable seating experience while maintaining a sleek, professional look. Its adjustable tension control allows you to customise your reclining experience, making it a versatile choice for the office, meeting room, or boardroom.

Features

Easy height adjustment with a simple lever allows for quick and effortless seat height customisation.

Adjustable backrest with a single lever—lock it in an upright position for focused task work or set it to free-float mode for relaxed movement.

A tension adjustment dial lets you fine-tune the reclining resistance for personalised comfort.

Upholstered in durable black fabric, offering a soft and supportive feel.

Adjustable lumbar support provides customisable lower back support for improved posture and comfort; can be removed if not needed.

A supportive, molded seat foam ensures long-lasting comfort and ergonomic support.

Slimline, fixed-height armrests provide additional support and can be removed if preferred.

Quality gas lift with 100mm travel allows smooth and stable height adjustments.

Stylish black nylon star base, paired with heavy-duty 60mm unhooded castors, ensures durability and effortless mobility.

Quick dispatch option – Available in knock-down (KD) format for fast 48-hour dispatch.
