

Cubit Slab End

Slab End desking is a popular office furniture style characterised by its sturdy, minimalist design featuring solid panel legs, or “slab ends,” that support the desktop on either side. Cubit Slab End desking offers a clean, professional look that suits a variety of office environments, from corporate settings to home workspaces. Its robust construction not only ensures durability but also provides a sense of privacy and structure.

Features

Built for long-lasting performance, this commercial-grade desk and workstation range features a 25mm thick worktop supported by sturdy 18mm slab end panels and an 18mm x 300mm high modesty panel for added privacy.

The durable melamine surface is finished in Atlantic Oak, with all edges sealed and protected by 2mm PVC edging to resist moisture intrusion.

The 1200mm desk is supplied without cable ports, while the 1500mm and 1800mm models include two 60mm ports for effective cable management. The workstation includes one 60mm cable port in the back corner.

Complete your setup by pairing with Cubit storage in matching Atlantic Oak to create a cohesive and functional workspace.

Overall height, including the worktop, is 730mm.
