

## Installation Guide

### Side-by-Side Linking

Align the dovetail features on the side of the brochure holders and slide the right hand brochure holder backwards to link together.

Side-by-Side Linking

### Multi-Tier Linking

Align the brochure holders one in front of the other so that the linking clips on the back of the front brochure holder are directly above the guide lines on the front of the rear brochure holder. Slide the front brochure holder firmly downwards to link together.

Multi-Tier Linking Option 1

Please note: There are two front-to-back linking positions. The upper linking position (Option 1) is designed for free-standing displays but can also be used for wall mounting displays where space is limited. The lower linking position (Option 2) is designed for wall mounting displays only.

### Wall Mounting

Attach the Aluminium Wall Mounting Bar to the wall, ensuring that it is horizontal. Link brochure holders together side-by-side as required and clip onto the wall bar. Additional rows of brochure holders can be linked to the front of rows already in place.

Multi-Tier Linking Option 2

Please note : For displays with 4 or more rows it is recommended that the small Lit Loc Base is attached to the back of the 4th, 5th or 6th row to space the brochure holders out from the wall and to provide additional support.

### Clip-on Base Installation

Align the brochure holder and base so that the lugs on the base fit into the keyhole slots on the brochure holder. Slide the base sideways to lock in place.

2-Tier DLE with Small Base
