

EDEN JOE

DELUXE COMFORT. RESPONSIVE POSTURE SUPPORT.

Joe is the product of years of study of chair manufacture, chair mechanisms, and how computer-users work.

With its multi-movement support and uncompromised comfort, you can forget you're even sitting.

JOE

COMFORT IS AT THE HEART OF JOE'S DESIGN.

Plush deluxe foam seat cushioning with lateral contouring provides natural cradling thigh support and day-long comfort.

The resilient mesh backrest offers broad pelvic, lumbar, and upper back support. The soft-feel lumbar support pad is height-adjustable.

EDEN

JOE'S UNIQUE RESPONSIVE MECHANISM FEATURES DYNAMIC MULTI-MOVEMENT SUPPORT.

THE ACTIVE WATERFALL SEAT FRONT OFFERS A SUBTLE REACTIVE TILT WHICH MIRRORS HUMAN REFLEXES.

Stretching as you stretch, relaxing as you relax, promoting circulation and joint and muscle activity, allowing a uniquely pressure-free sit.

The seat and back tilt is synchronised, moving at an ergonomically engineered ratio, following your movement as you work.

It automatically adjusts for user weight, and can be locked in a reclined or upright position.

The headrest features a firm mesh structure for superior neck and head support. It is height and angle adjustable.

The soft-feel multi-adjustable armrests offer variability of height, depth and angle, allowing full elbow and forearm support.

FEATURES

Generous high backrest of resilient cool-feel mesh
