

# STUDIO 50 OFFICE PARTITIONS

A DYNAMICALLY SIMPLE OFFICE SCREEN SOLUTION

**NEW  
RELEASE**  
FOR 2013

Extremely  
Light

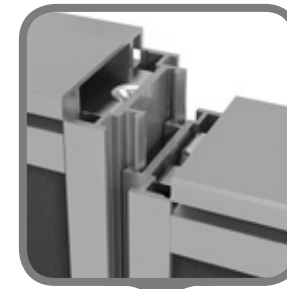

Precision  
Engineered

Very Simple  
To Install

Designed in  
New Zealand

# A well designed product will always make life easier!

**Studio50** is no exception. This new office partition system is easy to lift, easy to install and re-configure, plus it can be delivered in a matter of days.

## Precision engineered auto-lock system

The **Studio50** frame, designed in NZ by the Knight Group product development team, features an ingenious system that enables partitions to effortlessly slide together and automatically lock into position. By shedding many of the cumbersome components of conventional screen systems **Studio50** shaves valuable minutes off each screen installation. *Example: Install 10 floor standing partitions within approximately 12 minutes - with minimal need for tools!*

Pod of 4 Cubit workstations, 1200x1800mm  
90° floor-standing screens with cable management.  
Pinnable faces covered in Tomato Red Breathe and  
Ebony Crown fabrics

## Light weight, industrial strength panels

The innovative combination of an aluminium frame and extruded polymer-resin foam core means **Studio50** is not only extremely rigid but is also conveniently light-weight! **Studio50** panels are a one person lift - making them a dream to install and re-configure. *Example: A finished 1800 x 1200mm panel is less than 9kgs!*

## Tidy, easy-access cable tray

The hinged **Studio50** cable tray is designed for quick and easy access to your power and data. Gently lever the door open - once your cables are in position simply click the door back into place.

# Practical, pinnable and re-configurable

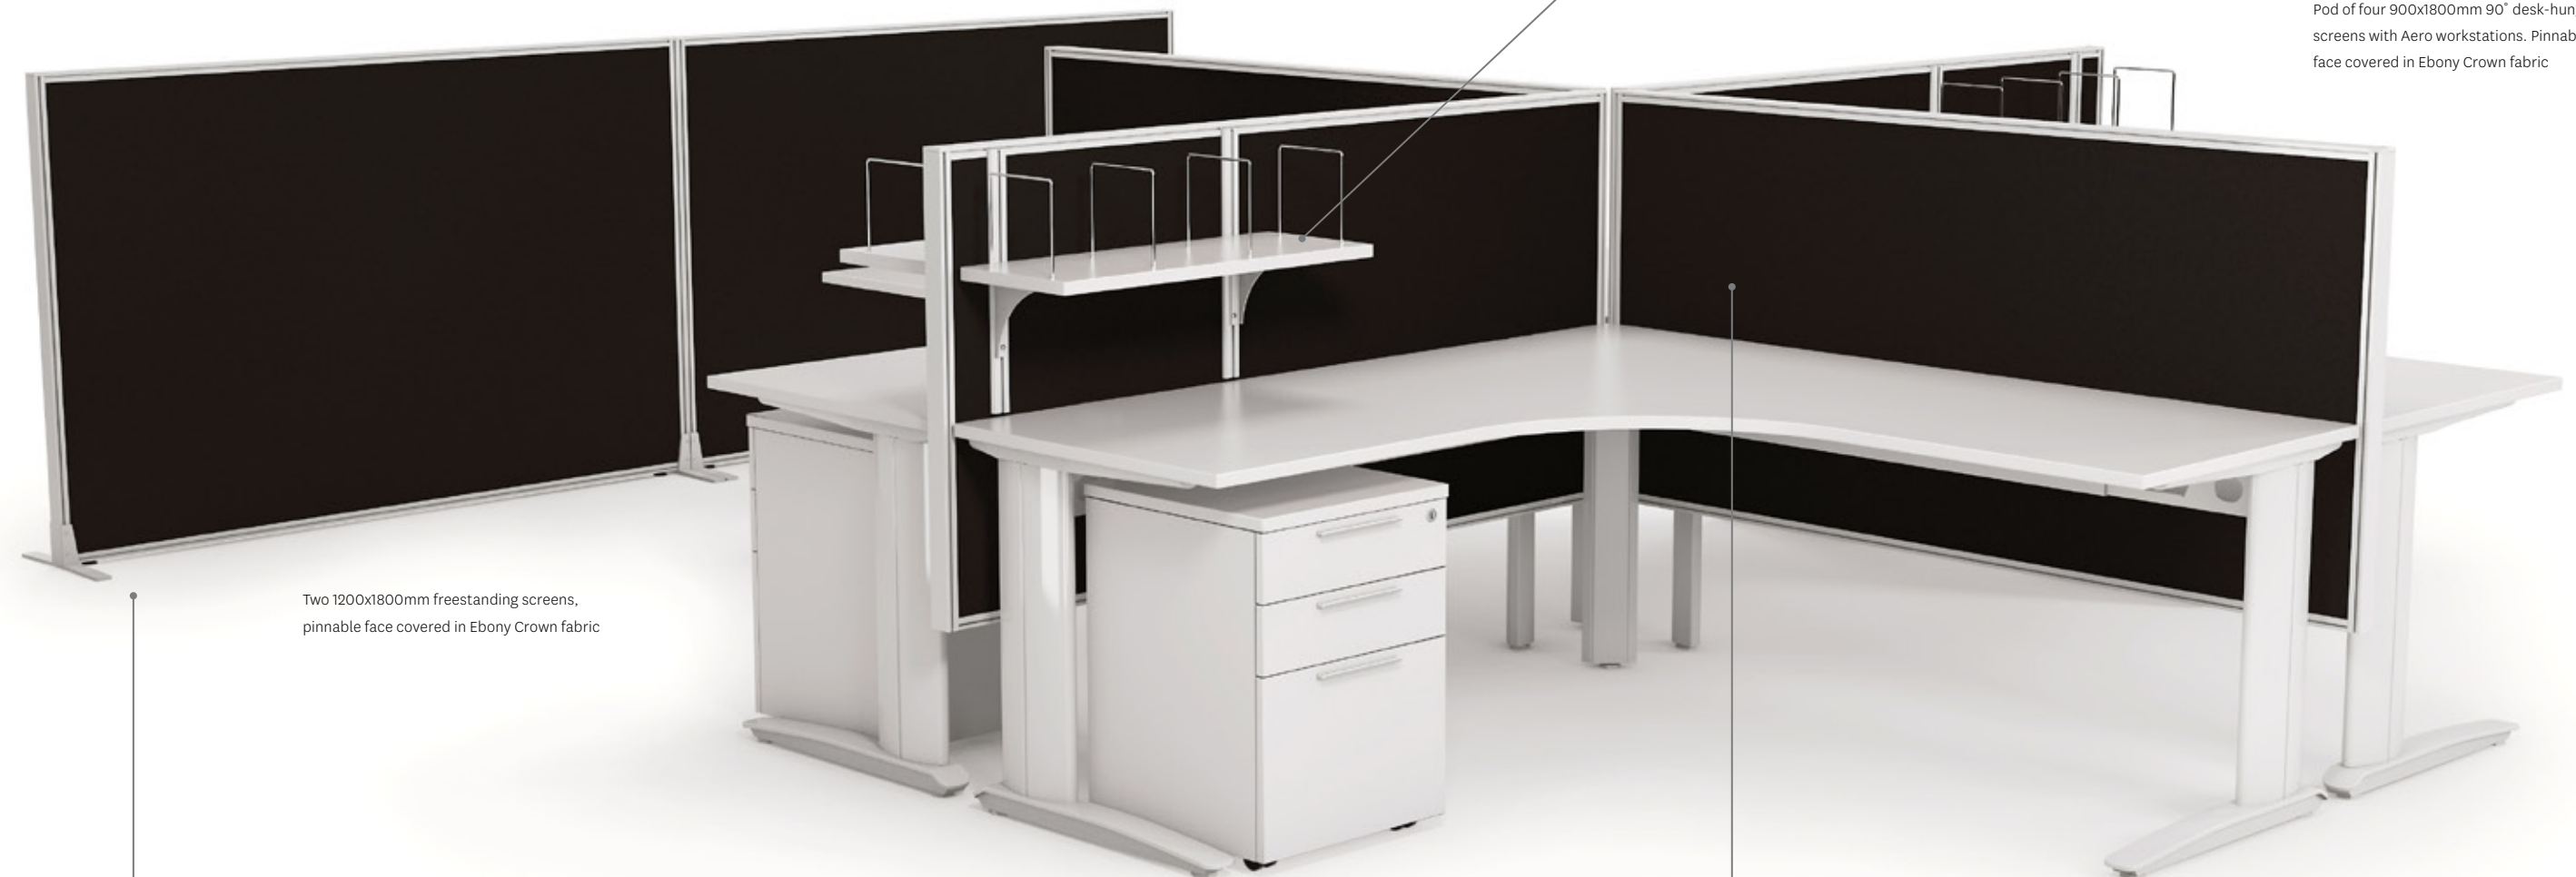

The pure ingenuity of **Studio50** means the same screen can be used in a multitude of applications. Whether it be movable floor-standing partitions, desk-hung screens or screen-hung work-surfaces - **Studio50** is a perfect fit.

## Adjustable Shelves - any height, any width, anywhere!

Organising your work space has just got easier and more flexible. Place your shelf anywhere at any width with the **Studio50** aluminium shelf-track. Secure the shelf at any height with the custom made shelf bracket. Once installed the shelf can be easily moved to a new position.

Pod of four 900x1800mm 90° desk-hung screens with Aero workstations. Pinnable face covered in Ebony Crown fabric

Two 1200x1800mm freestanding screens, pinnable face covered in Ebony Crown fabric

## Free-standing partitions

Create definition in an open plan environment with a **Studio50** free-standing partition. The unobtrusive **Studio50** foot is simple to install and keeps the partitions rock solid.

## Pinnable surfaces

**Studio50's** extruded polymer-resin foam core is an ideal pinnable surface - work areas can be easily organised and personalised.

# Integrated desking? Here's the solution!

**Studio50** is a great solution for screen-hung work surfaces  
- whether it be straight-line, 90° or 120° configurations.

## Quality components

Every component has been meticulously designed in New Zealand specifically for **Studio50** office partitions - making them highly effective and easy to use. These cast aluminium **Studio50** parts are built to last!

## 100% Recyclable frame and core

The **Studio50** aluminium frame and extruded polymer-resin foam core are 100% recyclable and reusable. Aluminium can be recycled indefinitely and is also the most cost-effective material to recycle. When recycled, extruded polymer-resin foam can be used to make a variety of products such as office and school supplies, audio packaging, thermal insulation, playground equipment, reusable cafeteria trays, traffic signs, and toys.

## Sturdy work-surface bracket

The cast aluminium **Studio50** desk bracket locks securely to the frame and can be placed at the height best suited to the user. Practically hidden from sight, the bracket is a tidy solution to a screen-hung work-surface.

Pod of three 1200x1200mm 120° screens with work-surface brackets and Cubit legs. Pinnable face covered in Alloy Grey and Bright Orange Breathe fabric

# Well planned spaces make efficient offices

**Studio50** allows you to specifically design your work areas to suit the function of the room - this makes your office run far more efficiently.

## Glazing options

The versatile **Studio50** frame offers plenty of options to use glass in your office partition. From partial to full glazing - the choice is yours!

1800x900mm Screen with 300mm glazing covered in Plum Breathe fabric

Alloy Grey Breathe fabric

Baby Blue Breathe fabric

Sky Blue Breathe fabric

## CAT6 Cable-ducts wherever you need

The generous cable management cavity is designed to accommodate Category 6 wiring and can be specified at any height above or below the desks at the time of manufacturing.

## Adjustable foot

**Studio50** stands on an adjustable levelling glide with 35mm travel allowing plenty of room to work on uneven floors.

## Easily connect multiple frame heights

Because the **Studio50** frame links and locks along the entire edge of the screen, you can connect any height together - without the need for any unsightly connectors!

# Systems sorted

**Studio50** is designed to work as a seamless addition to Cubit System. With their crisp contemporary lines and matching frame colours these two modular systems work in perfect harmony.

Three 500x1800mm desk-mounted screens with pinnable face covered in Spin Red fabric

## Cable management

Cubit System has a scalloped infill panel for discreet cable access.

## Multiple attachment options

**Studio50's** aluminium shelf-track allows for multiple attachments to be applied to the screen. For example; adding two **Studio50** shelf-tracks creates the platform for mounting a standard monitor arm - at any height, anywhere along the screen.

## Match your frame to your desking system

The Auto-Lock Aluminium Frame is finished in Silver or White powder-coat to match your entire office.

# Personalised work environments

## Your choice of fabric

The pinnable face of a **Studio50** screen can be finished in the fabric of your choice - making it easy to add colour to your office space. The Knight Group upholstery team recommends using either plain fabrics or large random patterns.

## Endless possibilities

For a fully personalised office, **Studio50** partitions can be upholstered with custom designs to the screen at time of manufacture. Keep staff inspired or create better brand awareness. It's easy with **Studio50**!

## HANGING ACCESSORIES

File holder

Multi file holder

Magnets-set 10  
Magnetic board A3

Pen holder

Telephone support

A4 paper tray

Cup holder

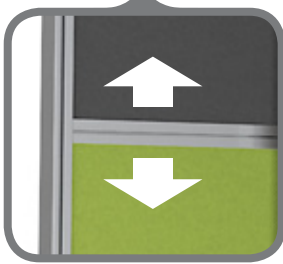

Twin pen holder

Screen-mounted work surfaces on castors and free-standing partitions - pinnable face covered in Lime Green and Black Breathe fabric

## Multiple colour options

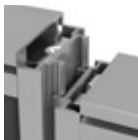

Incorporating partitions into the overall interior design of your office is easy! Each **Studio50** panel can be covered in a different fabric, and by adding a transom to your screen you are able to have two colours.

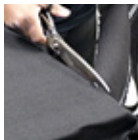

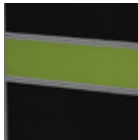

## Go mobile

Adding heavy duty locking castors to **Studio50** increases the flexibility of your work space!

# Standard Studio50 Features

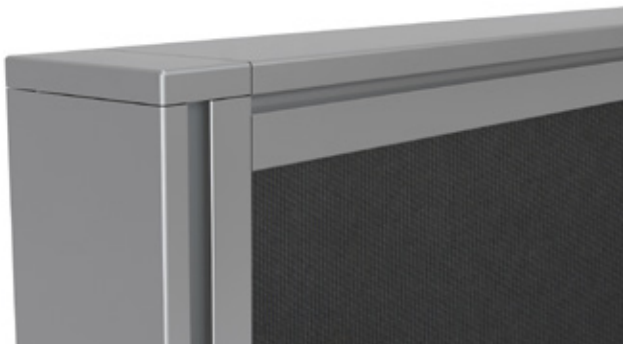

SPECS			BENEFITS	
✓	<b>Light weight, industrial strength panels</b>		Studio50 is an innovative combination of a 50mm aluminium frame and extruded polymer-resin foam core. Example: A finished 1800 x 1200mm panel is less than 9kgs!	<i>Studio50 is not only extremely rigid but is also conveniently light-weight! A dream to install and reconfigure. 1 person lift!</i>
