

# Kubix Shelving

Kubix is a versatile modular shelving system that combines open and closed storage solutions. Arrange individual units to create visual interest or incorporate middle sections to expand the system and partition open-plan areas. Customise with optional cubbies, cupboards, and planter boxes to match your workplace style.

## Features

Designate distinct work areas within an open-plan workspace without constructing permanent walls.

The sleek, 20mm modular black powder-coated frame offers flexibility and style, with the ability to extend as your business evolves.

Single frame unit measures 840W x 400D x 2000H mm.

Melamine components are crafted from durable 18mm E1 board, available in two contemporary finishes: white or atlantic oak, both with 2mm PVC edging.

Adjustable feet ensure perfect leveling on any surface.

Customise your Kubix shelving system with optional cubbies, cupboards, and planter boxes to suit your needs.

Choose from half or full cubby options - ideal for open display or use as stylish bookshelves.

Cupboards feature soft-close hinges and a concealed push-to-open mechanism for a sleek, handle-free look.

The twin interiors of both small and large cupboards are thoughtfully designed, with the large cupboard including an adjustable shelf on each side for flexible storage.

The planter box comes complete with a powdercoated liner and a cover featuring three cut-outs, for 200mm diameter pots - suitable for both live and artificial greenery.

	Width	Depth	Height
<b>Single Frame Unit:</b>	840mm	400mm	2000mm
<b>Large Cupboard:</b>	800mm	400mm	709mm
