

Ligna

Natural craftsmanship meets contemporary versatility.
A refined collection for collaborative and individual spaces.

Redefining the workspace.

Ligna is where natural materials and purposeful design meet.

Developed to bring warmth and sophistication to modern work environments, Ligna showcases the beauty of sustainably sourced solid oak, integrated with sleek black steel framing for strength and simplicity.

From high-function boardrooms to casual lounges and workstations, Ligna offers a cohesive range that adapts to how teams meet, collaborate, and work.

Whether you're designing collaborative zones, quiet offices, or flexible meeting areas, Ligna provides a timeless, architectural foundation.

Crafted for clarity.

Built for performance. Inspired by nature.

Ligna's construction fuses the strength of powdercoated steel with the warmth of natural timber.

Every piece is designed for real-world commercial use – durable, functional, and fast to assemble.

- Solid natural oak legs with black steel brackets
- Commercial-grade 25mm E1 melamine tops
- Refined detailing with 2mm PVC edging
- Adjustable feet for enhanced stability
- Fast assembly, easy integration
- Optional cable trays available on select items

Available in black or white tops with oak leg detailing, Ligna suits every zone – from shared to solo.

One design language.
Endless configurations.
