

# AXESS Umbilical

# Axess

## Workstation Umbilical

CMS Axess is specifically designed for cable protection when bringing power and data cables from the floor or ceiling to the work surface. A fully featured cable management system with a designer edge.

The snap-together 'Rigid Mode' provides a self-supporting cable column as an integrated option within the system. At the same time, the snap-apart 'Flexi Mode' provides all the flexibility you need in an umbilical product. With its unique door innovation, the Axess umbilical has integrated doors that allow free access to cables at any time.

When used from the floor to the desk, Axess provides an attractive and flexible solution for cable distribution. The delivered product comprises of the Axess itself, a floor foot and a screw fixing anchor for the top. When used with raised access floors, Axess can be fitted with a special grommet base that can be locked into a CMS Cableway 1000 access floor grommet. This provides an easy and neat transition from the floor to workspace.

### Colours Available

● Black ○ White ○ Clear

### Key Features

- » Axess can be installed after cables are in place.
- » Cable can be accessed at anytime during installation.
- » Extra wiring can be easily installed at any time in the future.
- » Other mounting options available are the standard floor foot and wall plates (for mounting to a cavity wall).

## Components

AX70  
Acess 700mm section

AXC  
2 piece ceiling flange

AXD  
Mounting foot underdesk

AXA  
Joiner

AXCD  
In-desk flange

AXP  
Anodised Aluminium Rod

AXG  
Round Disc Base with Joiner

AXB  
Horse Shoe Base with Joiner

AXW  
Wall Mounted Base with Joiner

AXH  
Top Hooker for False Ceiling  
Mounting
