

T-Span Shelving

About OLP

Proudly Australian-owned since 2009, OLP is a leading wholesaler of commercial furniture and storage solutions across Australia and New Zealand. With national warehousing, fast delivery on stocked products, and the ability to customise new designs, we deliver style, function, and sustainability without compromise. Our national business development and customer service teams ensure every project receives expert, personalised support, from concept to completion.

About Steelco

Steelco has been delivering high-quality, sustainable storage solutions for over three decades. With accredited products built for quality, durability, and environmental responsibility, and a strength in customisation, we bring the latest designs to the Australian and New Zealand markets, crafted to meet the needs of every space.

Certifications and Sustainability Features

Manufactured for Disassembly

This product has been designed for disassembly which allows it to be easily taken apart at end-of-life for reuse, repair, or recycling. This innovative design philosophy not only prolongs product usability but also simplifies waste diversion, lowers environmental impact, and reflects modern principles of circular design.

VOC-Free Materials

Volatile Organic Compounds (VOCs) in this product is below the emission rate limit set by the Green Building Council of Australia. VOC-free products improve indoor air quality, supporting healthier work environments.

100% Recyclable Steel

This product uses steel that is 100% recyclable at the end of its lifespan. Every steel component can be processed through recycling systems to be reused. This reduces landfill waste and supports clients in meeting green building and environmental certification targets.

Australian Trusted Trader

OLP is an accredited Australian Trusted Trader, recognised by the Australian Government for our secure and compliant international trade operations. This accreditation signifies our commitment to ethical sourcing, customs compliance, and risk management allowing us to build stronger partnerships and deliver more efficient, transparent supply chains.

APCO

OLP is a member of the Australian Packaging Covenant Organisation. OLP is committed to reducing the environmental impact of our packaging. We use packaging that prioritises recyclability, and avoids excess plastic and other materials.

Sedex

OLP is a registered supplier in the Sedex Ethical Sourcing Platform. OLP is committed to improving ethical, social and environmental standards at every step of our supply chain. **Reference No. ZC1011847**

ISO 9001:2015 Quality Management System

OLP has a Quality Management System (QMS) that focuses on continuous improvement in customer service to our clients, including the delivery of quality products and services that are manufactured and provided to the highest industry standards. By following our QMS we are able to control the quality of all products that we distribute regardless if they are custom one-offs or our standard range.

ISO 14001:2015 Environmental Management System

OLP's Environmental Management System (EMS) gives us the ability to identify better allocations of our "resource, waste and energy management" minimising our environmental footprint. The focus on providing an eco-friendly environment has significantly reduced our environmental impact and subsequently our entire networks impact, with the hope that it continues to reduce going forward into the future.

ISO 45001:2018 Occupational Health & Safety

OLP has adopted international best practices in our systematic approach to health and safety management, by focusing on a proactive approach rather than reactive controls. From this structure it is easy to see that OLP has a rigorous OHS policy and management system in place to protect the health and safety of our employees and visitors at all OLP facilities and sites.

Product Stewardship

OLP embraces product stewardship by taking responsibility for the entire lifecycle of our products, from design and manufacturing to use and end-of-life. We implement take-back schemes, offer recycling support, and partner with industry programmes to ensure products are disposed of sustainably. This commitment reduces landfill waste and promotes responsible resource use.

The Steelco T-Span® Shelving system is a proven, high-strength and versatile storage solution, designed with adjustable shelf heights to suit a variety of needs. Its modular design allows for the easy addition of extra bays, making it ideal for expanding storage configurations.

Ezi-Drive Product Details

Features

- ◆ Heavy Duty 'T' section uprights
- ◆ 4 shelf levels per shelving unit as standard
- ◆ Shelf heights easily adjustable at 50mm increments
- ◆ Includes shelf position indicators on uprights
- ◆ Sleek, modern, modular design
- ◆ Add-on bays and additional shelf levels also available to purchase separately
- ◆ Up to 400kg shelf capacity uniformly distributed load (UDL)
- ◆ Quality powder coated finish in contemporary, neutral two-tone colours
- ◆ 10-year product warranty
