

Velocity

Introducing "Velocity," a versatile desking range designed with a focus on quality and value. Whether you're inclined towards a stationary setup or desire the flexibility of adjustable height, Velocity offers both fixed and electric frames to cater to multiple users.

FEATURES

- Velocity is available in three configurations single (SSD), shared (DSD) and workstation (WS).
- Frames are available in fixed (SSD & DSD) and electric (SSD, DSD & WS) finished in black or white powdercoat.
- Square 70 x 70mm leg profile with 680mm foot.
- Desk tops come in standard rectangle or with a scallop. (*Scallop tops available in white & atlantic oak only).
- Worktops are commercial-grade 25mm E1 Board finished in melamine with 2mm PVC edging.
- Electric desks and workstation legs are designed with 3 columns for enhanced stability, weight bearing capacity and wider range of height adjustment.
- Electric desks feature twin motors to independently drive each leg up and down - no need for a gear rail.
- Electric desking has anti-collision protection and a four point memory handset with digital height readout and USB charging port.
- Extendable cable tray comes standard for DSD and an optional accessory for SSD.
- Frames are compatible with Studio50 and Active25 screens with use of screen brackets.
